The 2nd China-Japan Joint Asbestos Symposium

Schedule

DATE: April 17th, 2009

LOCUS: Yue Feng Building Meeting Room

TIME	ADDRESSER	SUBJECTS	CHAIRPERSON
8:30-9:00	Opening ceremony		Li Dehong Masanobu Kitagawa
Special Report			Zhang Xing Kenji Morinaga
9:00-9:40	Kouki Inai	Pathological diagnosis of malignant mesothelioma	
10:00-10:20	Li Tao	Asbestos-related activities and diseases in China	
10:20-10:30	Break		
Communicate meeting			
10:30-10:50	Kazunori Okabe	Our techniques of extrapleural pneumonectomy for malignant pleural mesothelioma or Therapy of malignant mesothelioma	Wang Mianzhen Kenzo Hiroshima
10:50-11:10	Wang Mianzhen	An Epidemiological study on asbestos-related diseases of Chongqing asbestos products factory	
11:10-11:30	Kenzo Hiroshima	Prognostic significance of promoter methylation of p16INK4A in pleural mesothelioma	
11:30-11:50	Lan Yajia	Effect of smoking amount on asbestosis' severity among asbestos workers	
11:50-13:00	Lunch and Break		

The 2nd China-Japan Joint Asbestos Symposium

TIME	ADDRESSER	SUBJECTS	CHAIRPERSON
13:00-13:20	Kenji Morinaga	Mesothelioma and its compensation scheme in Japan and several European countries	Wang Mianzhen Kouki Inai
13:20-13:40	Chen Junqiang	Analysis of Death Cause of the Population Exposed to Chrysotile Asbestos	
13:40-14:00	Masatoshi Tagawa	A possible therapeutic strategy with gene medicine: Fiber-modified oncolytic adenoviruses with tumor-specific E1A expression achieved anti-tumor effects on mesothelioma	
14:00-14:20	Zhu Lijin	Refractory Ceramic Fibers Induced Bronchial Epithelial Cells Malignant Transformation	
14:20-14:40	Yasushi Shinohara	Accuracy control of phase contrast microscopy counting of asbestos body:Results from two-year interlaboratory study	
14:40-15:00	Tea Break		
15:00-15:20	Deng Qian	30-year cohort study: the dose-response relationship of exposure to asbestos dust and asbestosis	Lan Yajia Kazunori Okabe
15:20-15:40	Yasumitsu Nishimura	Suppressive effect of asbestos-exposure on cytotoxicity of human NK cells, and the possibility of NKp46 as a marker to monitor immune status in people exposed to asbestos	
15:40-16:00	Zhang Jixian	Pathological diagnosis of Mesothelioma	
16:00-16:20	Longnan Jin	Evaluation of apoptosis and expression of the apoptosis-related proteins in epithelioid mesothelioma	

April 18th

TIME	ADDRESSER	SUBJECTS	CHAIRPERSONS
9:00-11:00	Free discussion on asbestos-related diseases in China and Japan		Kenji Morinaga Zhang Xing
11:00-11:30	Closing ceremony
